

The Near-Death Experience (NDE) Program

(August 15 – 21)

Honeymoon Bay Retreat ~ Vancouver Island

Join Near Death Researcher, Dr. Scott Taylor and multiple near-death experimenter, Paul Elder, on a unique 6-day journey into the realms of Spirit.

During your time with us you will learn various techniques to leave your physical body. Using a blend of patented Hemi-Sync® technology and specific meditation techniques, you will discover how to safely enter specific states of consciousness associated with Near Death and Out of Body Experiences, and return at will.

For the first time ever, this powerful and sacred experience is available to everyone.

During this first-of-its-kind program, you will explore the non-physical universe by visiting the realms encountered by Near Death Experiencers. You will have the unique opportunity to explore the signature aspects of NDEs in a way that is safe and transformative. Many people report:

- Gaining a profound inner wisdom.
- Connecting to something greater than oneself
- Reuniting with friends and relatives who have transitioned
- Experiencing a powerful feeling of breaking through any barriers of fear and limitation
- Developing the desire to live differently
- Accessing the realm of all knowledge
- Experience Ultimate Freedom

Release your fears. Know and look forward to where you are going.

Tuition: \$1,995. (Includes all seminar activities, meals, lodging, and local airport/ferry pickup & drop-off)

Paul Elder ~ 1876 Morello Road, Nanoose Bay, BC. V9P 9B1 ~ (250) 730-7701 ~ paul.elder@shaw.ca
