An Introduction to Remote Viewing with Paul Elder

February 15 ~ 7:00 – 10:00 PM

Self Connection ~ 125 – 4611 Bowness Road NW.

From the world renowned Monroe Institute, international Remote Viewing Instructor, near-death survivor and author, Paul Elder, presents a mini-workshop on leading-edge research into extraordinary levels of consciousness and human abilities such as Remote Viewing.

What is Remote Viewing? Described as an art as well as a science, Remote Viewing reflects the innate human ability to perceive and accurately describe any person, place, thing, or event, remote through space and time. In this evening introductory workshop, Paul will introduce some of the techniques developed while training with the original Top Secret “Star Gate” remote viewers.

With the assistance of specially developed Hemi-Sync frequencies from the Monroe Institute, participants will be guided through an actual Remote Viewing session, giving everyone a fun opportunity to test their own psychic abilities in a controlled experiment.

History, applications and success — learn the amazing truth about Remote Viewing.

Tuition: \$25. Please register early: <http://www.paul-elder.com/appear.html>
